

The National Digital School Plan (PNNSD) is a policy launched by the Ministry of Education, University and Research for setting up a comprehensive innovation strategy across Italy's school system and bringing it into the digital age.

The Plan is implemented through four steps involving Tools, Skills and Contents, Staff Training and Accompaniment.

Priorities

	<p>Connectivity Ultra-broadband in all schools, wired and wireless networks in all schools, contributions for the connectivity fee.</p>
	<p>Environments and Tools Innovative learning environments for digital teaching, digital devices for classrooms and students, innovative digital laboratories, Digital School Award.</p>
	<p>Skills and Contents Innovative curricula and digital skills, innovative teaching methodologies, STEM, digital entrepreneurship, digital content, innovative libraries</p>
	<p>Training Training of school staff, digital animators, innovation teams, protocols, good practices</p>
